

DHHS PULSE REPORT

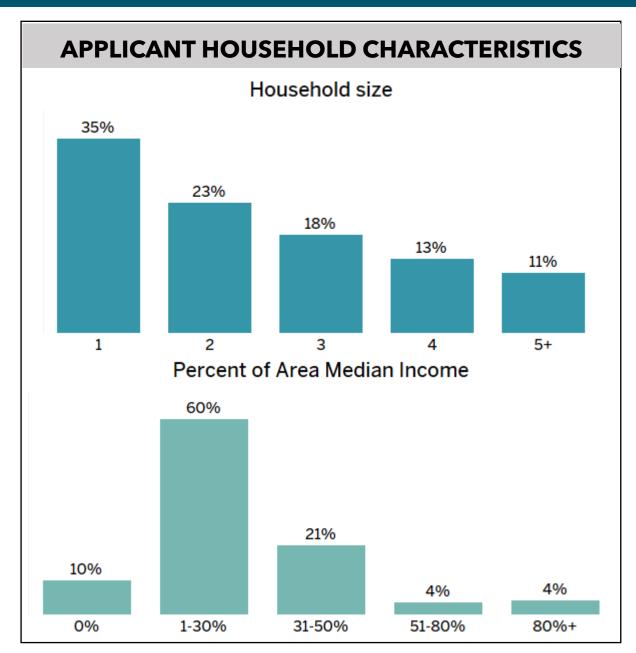

COVID-19 IMPACT AND RECOVERY March 16, 2022

RESPONSE: EMERGENCY ASSISTANCE & DEMAND

APPLICANT CHARACTERISTICS

- **52%** matched with landlord application
- **53%** unemployed past 90 days
- 29% needed to care for self/others
- 23% self-reported receiving an eviction notice
- Median household income: \$21,072

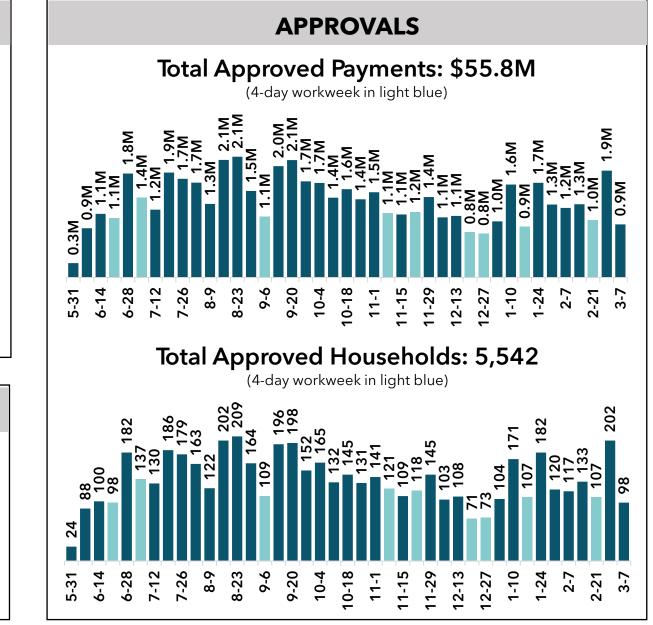

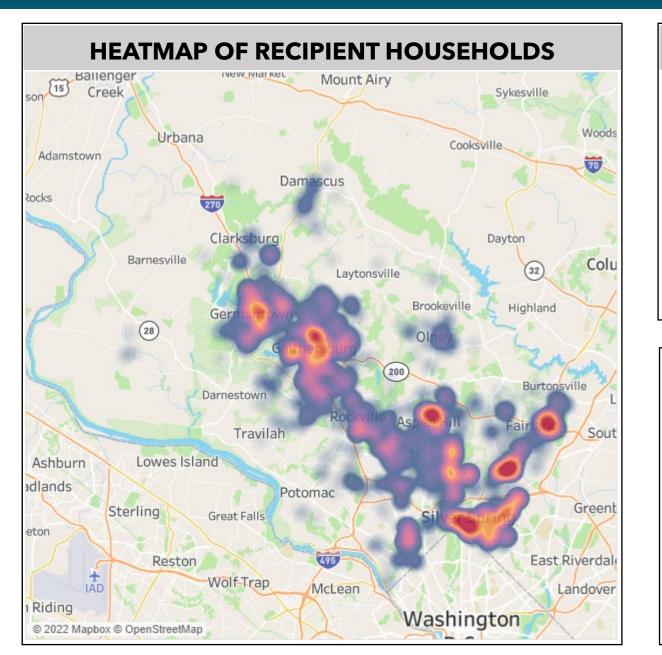

APPLICATION PROCESSING Denials are primarily 27% due to applicants not Denied having arrears/mortgage assistance requests, 2% exceeding income Received 63% requirements, not Processed 9% demonstrating county Assigned/under review residency, and include non-responsive and fraudulent requests. May not add to 100% due to rounding.

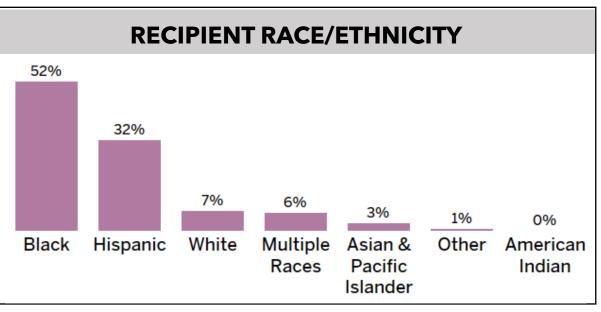

ALL-TIME TOTALS

The current round of funding adds to two previous rounds of COVID-19 assistance. In total, the Emergency Rental Assistance Program has approved:

- **\$73.7M** in payments
- 10,038 households

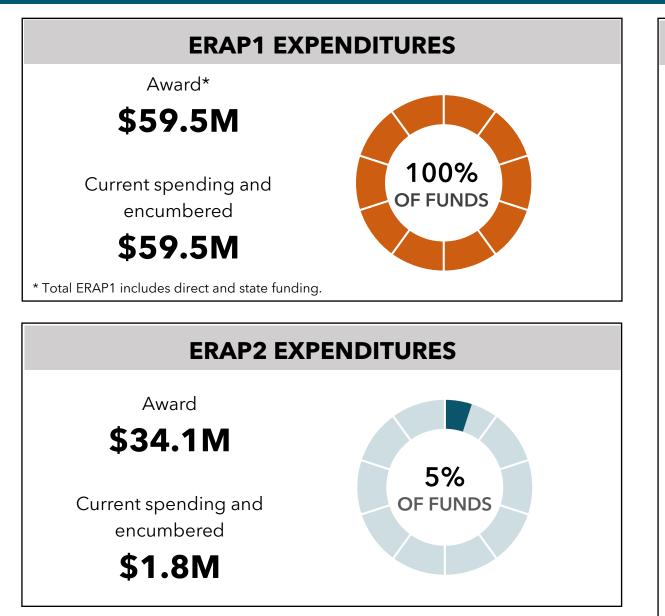

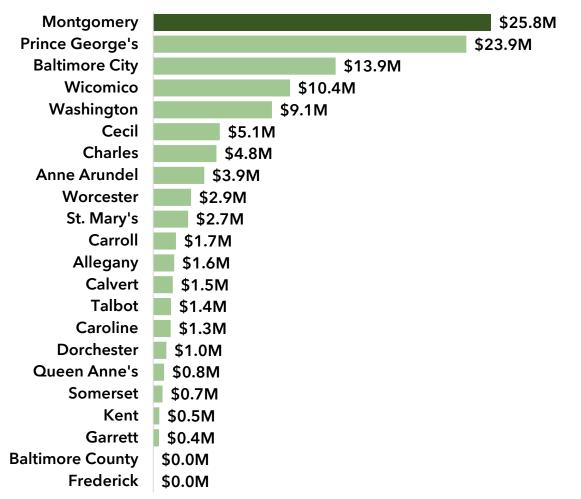

ADDITIONAL RECIPIENT CHARACTERISITICS

- Average client payment: **\$10.1K**
- 64% of payments arrears; 36% prospective
- 46% of awarded households are in highneed areas as defined by the Homeless Prevention Index

STATE EXPENDITURES BY COUNTY (ERAP1)

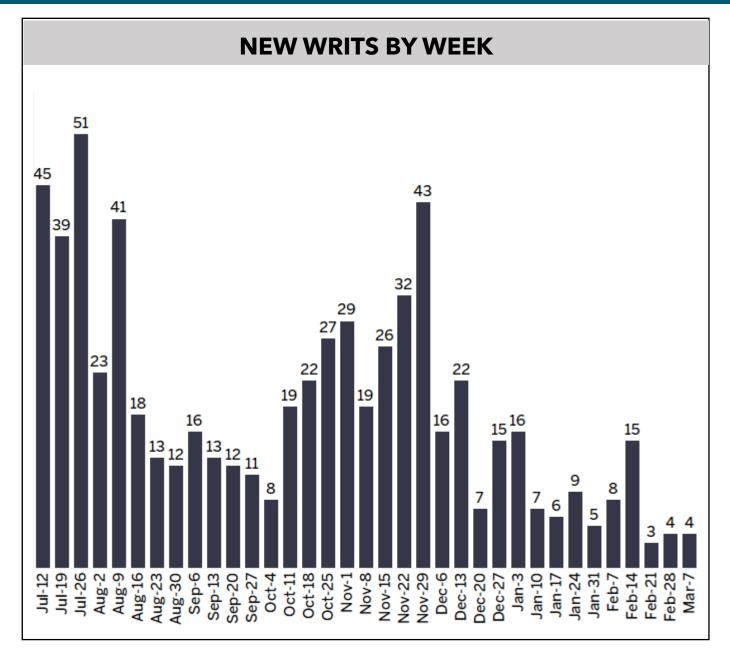

As of 1.31.2022

Note: Spending and percentages may shift as payments are reconciled.

Source: Maryland Department of Housing and Community Development, <u>https://bit.ly/3DQSVZV</u>

EVICTION TRACKER

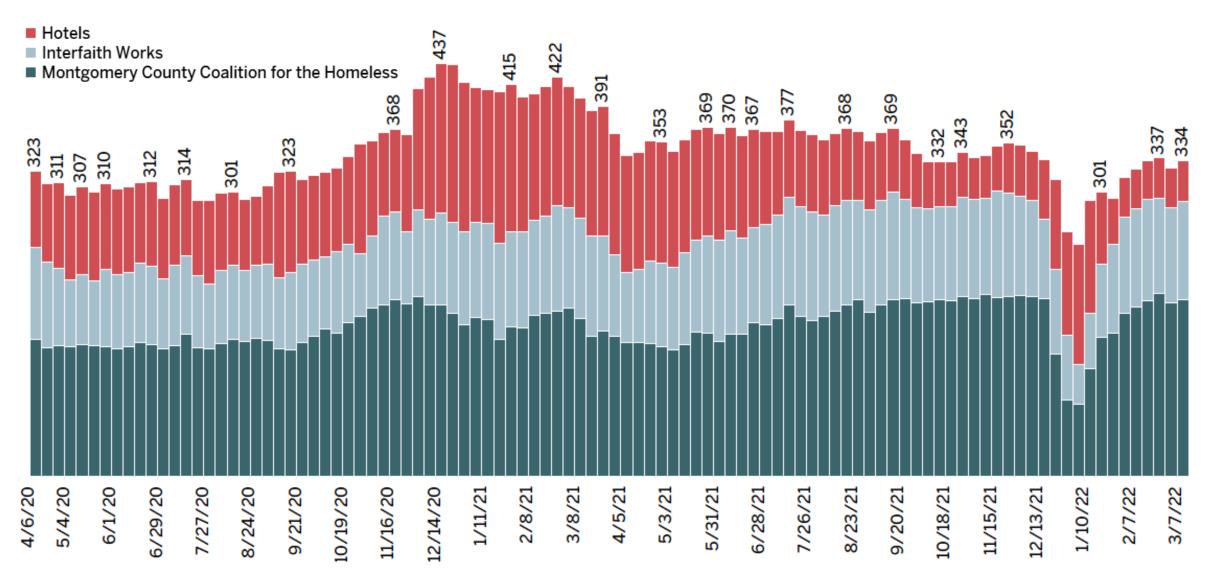

- **936** residents scheduled for eviction after July 19
- 45% of households with writ have applied for emergency rental assistance
- Context: **fewer than 8%** of writs typically result in eviction

NOTE: Records on writs for eviction can include commercial tenants as well as multiple notices for a single household. The stats above attempt to capture <u>unique residential households only</u>, but it is not always possible to make such distinctions.

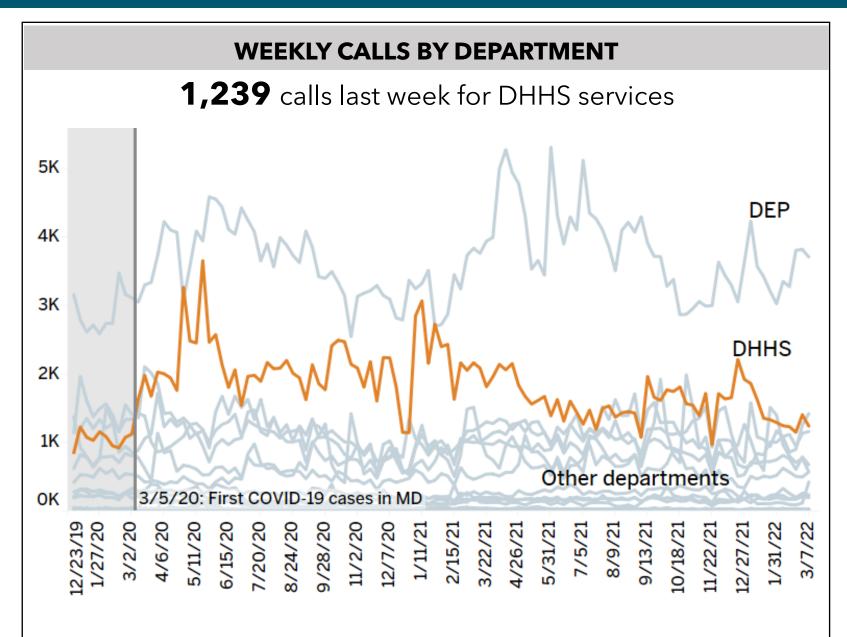

SHELTER OCCUPANCY

Average Daily Shelter Occupancy by Week

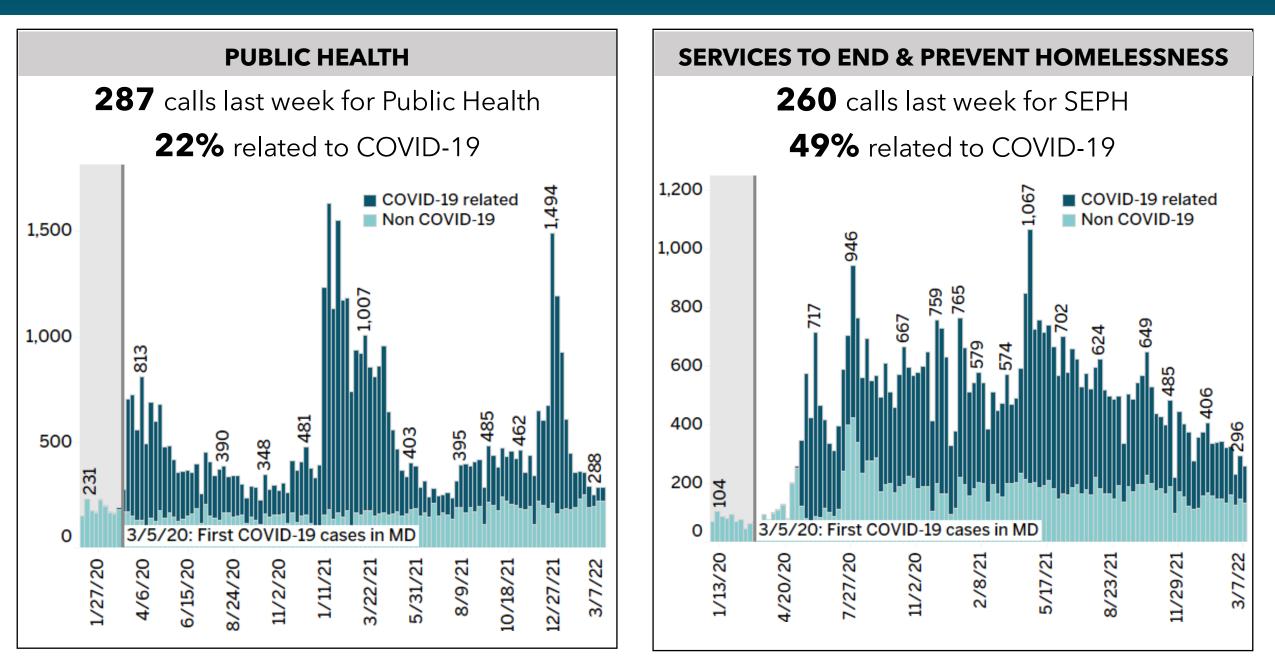

NOTE: Up to March 7, total occupancy does not include MCCH-affiliated hotels providing shelter to those who are in quarantine or isolation.

MC311 WEEKLY CALL VOLUME: DHHS

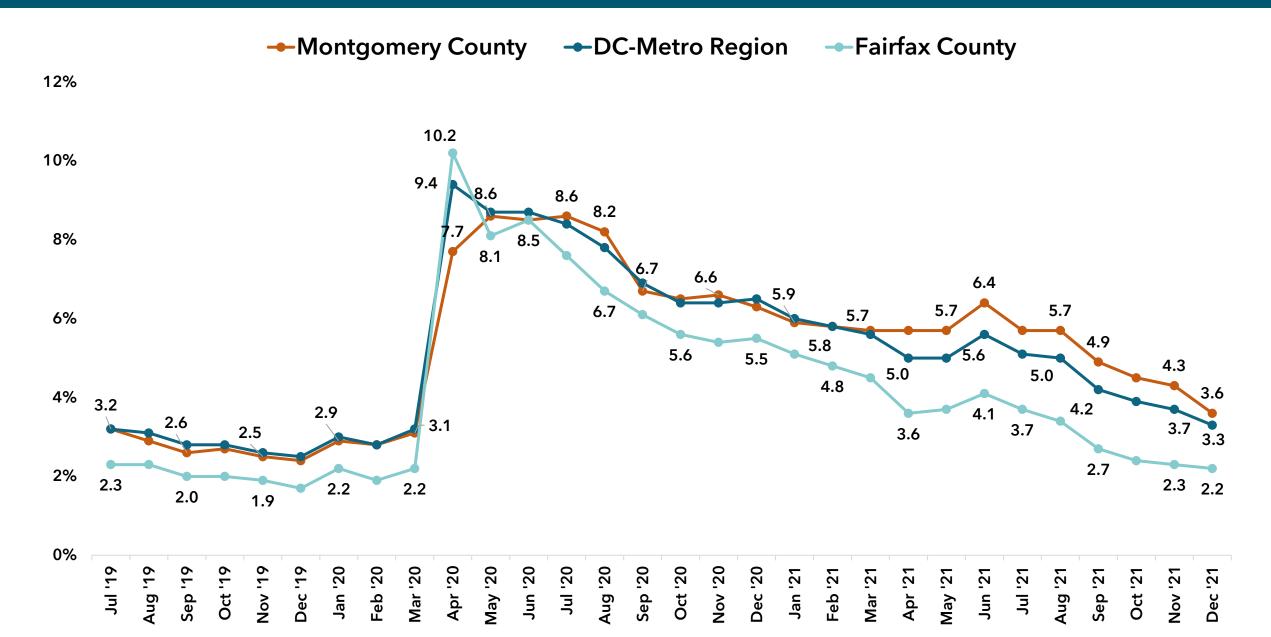

- Nearly 41% of last week's DHHS service calls were regarding public assistance programs
 - Most questions regarding public assistance are referred to the Office of Eligibility and Support Services, which in February fielded 2,054 direct calls and 1,734 referrals from MC311
- 10% of DHHS calls to MC311 were about the COVID Rental Relief Program

MC311 WEEKLY CALL VOLUME: DHHS

UNEMPLOYMENT RATES IN THE REGION

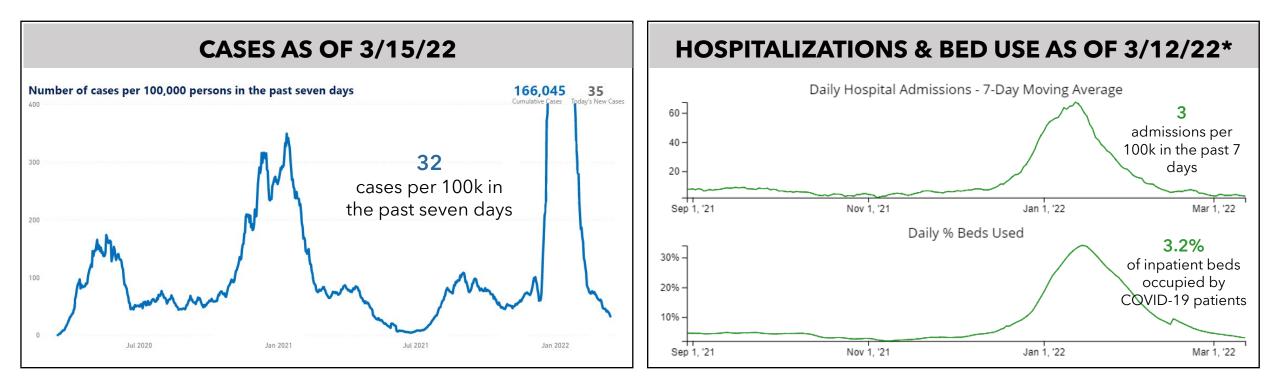

COVID-19 CASES, VACCINATIONS, & TESTING

COVID-19 CASES & HOSPITALIZATIONS/BED USE

Based on CDC's new community level indicators, Montgomery County's community level is LOW.

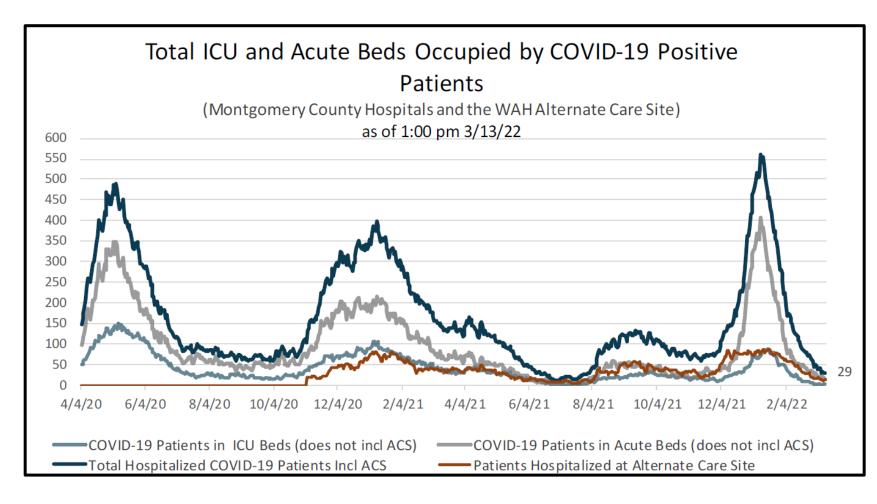

- Fewer than 200 cases per 100k in the past seven days
- Fewer than 10 new COVID-19 admissions per 100k in the past seven days
- Less than 10% of staffed inpatient beds occupied by COVID-19 patients on average in the past seven days

For real-time updates, visit the COVID-19 Surveillance Dashboard: <u>https://www.montgomerycountymd.gov/covid19/data/</u> and the CDC's Integrated County View page for Montgomery County: <u>https://bit.ly/3ITKTIP</u>

* The CDC metric for percent of inpatient beds occupied by COVID-19 patients differs from the percent reflected on Montgomery County's surveillance dashboard due to data delays and differences in how the CDC groups hospital services areas. DHHS and CountyStat are working to align the two metrics. Case rate and hospital admissions may be delayed on CDC site relative to county dashboard.

COVID-19 HOSPITALIZATIONS

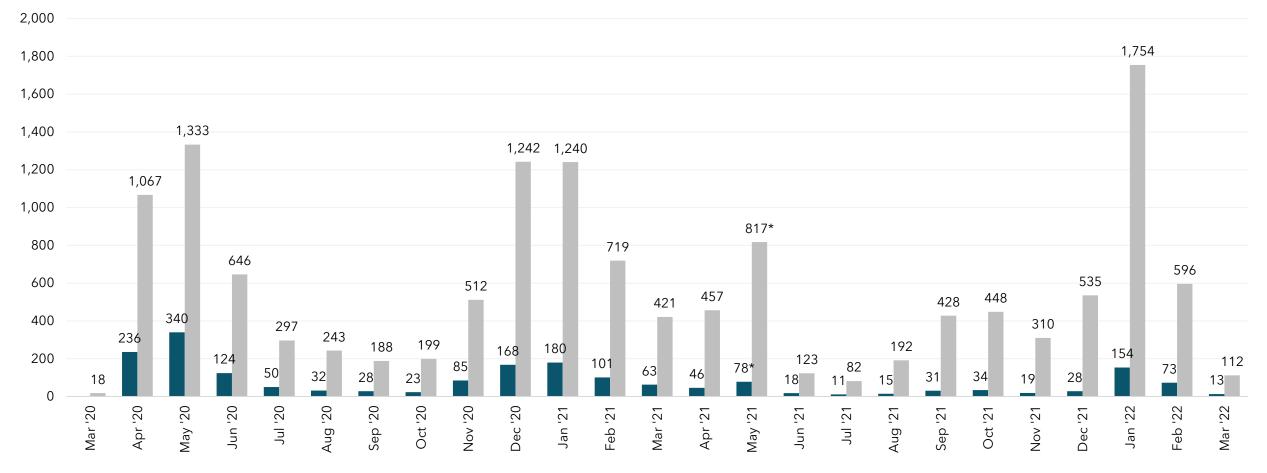

- There are 29 hospitalized COVID-19 patients as of 3/14.
 Both acute care (14) and ICU (2) bed usage has declined.
- 1.9% of hospital beds in the community are occupied by patients with a COVID diagnosis (as of 3/14).
- 13 patients are currently hospitalized at the alternate care site. These patients are transfers from other hospitals and may come from other jurisdictions.

For real-time updates, visit the COVID-19 Surveillance Dashboard: <u>https://www.montgomerycountymd.gov/covid19/data/</u>

COVID-19 DEATHS

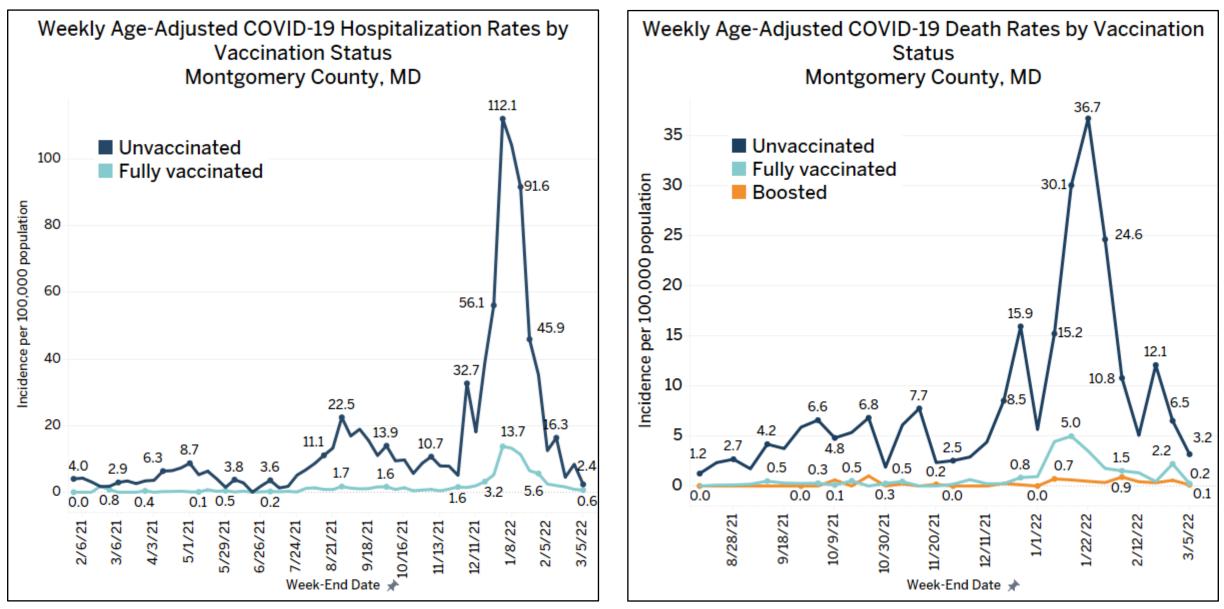

Monthly COVID-19 Deaths Updated 3/14/22

Montgomery County Maryland

*VSA revised death data on May 27, 2021 to include COVID-19 deaths not previously counted. NOTE: Monthly totals are based on the date death was reported, which may not be the same as the date on which the death occurred.

HOSPITALIZATIONS & DEATHS BY VACCINATION STATUS

NOTE: Hospitalization rates for the boosted population are not available.

COVID-19 VACCINATIONS: TOTALS FROM CDC

TOTAL VACCINATIONS (AS OF 3/14/22)

- ≥95%¹ of <u>total</u> population received at least ONE DOSE [N=1,059,199]
- **86%**² of <u>total</u> population received at least TWO DOSES (fully vaccinated) [N=902,197]
- **53%** of <u>fully vaccinated</u> population received a BOOSTER/ADDITIONAL DOSE [N=476,264]
- 1. The CDC caps percentages at 95% to account for margins of error in data entry and population estimates.
- 2. On 1/19 the CDC revised its method for counting vaccines administered at Bureau of Prisons and at Department of Defense facilities to better align vaccine counts with residential county of recipient instead of county where vaccine was administered. This revision has decreased the vaccine county for Montgomery County.

NOTE: The CDC vaccination count includes Montgomery County residents who received their shots in Maryland or outside the state. It also includes vaccinations administered in some federal entities within Montgomery County.

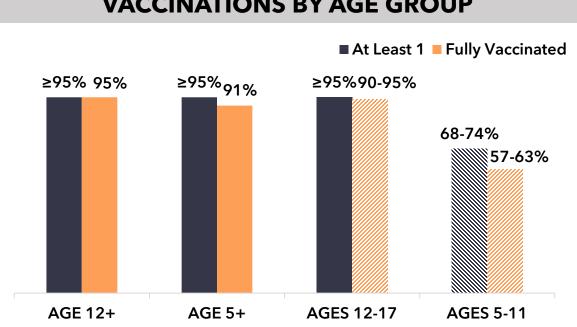

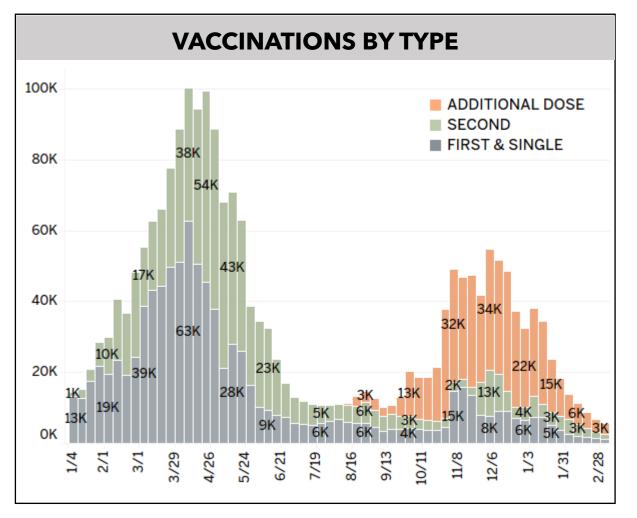

Chart reflects percent of total age group population that received doses. Percentage estimates are reflected as ranges for ages 12-17 and ages 5-11 due to higher margins of error.

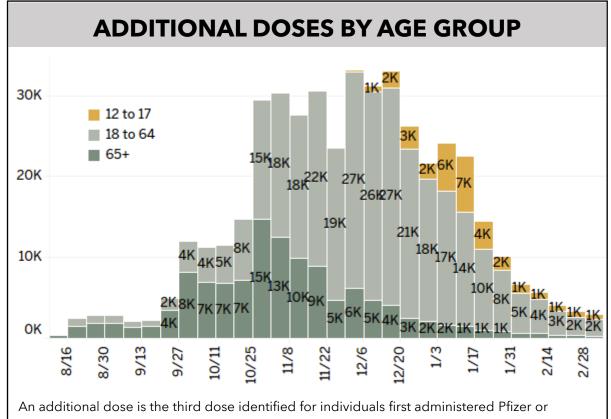

- **56%** of the <u>fully vaccinated 12+ population</u> • received a BOOSTER/ADDITONAL DOSE [N=476,132]
- **76%** of the <u>fully vaccinated 65+ population</u> • received a BOOSTER/ADDITIONAL DOSE [N=126,036]

VACCINATIONS BY AGE GROUP

COVID-19 VACCINATIONS: FIRST-DOSE WEEKLY VOLUME

Charts below show most recent full weeks of data, up to March 6, 2022.

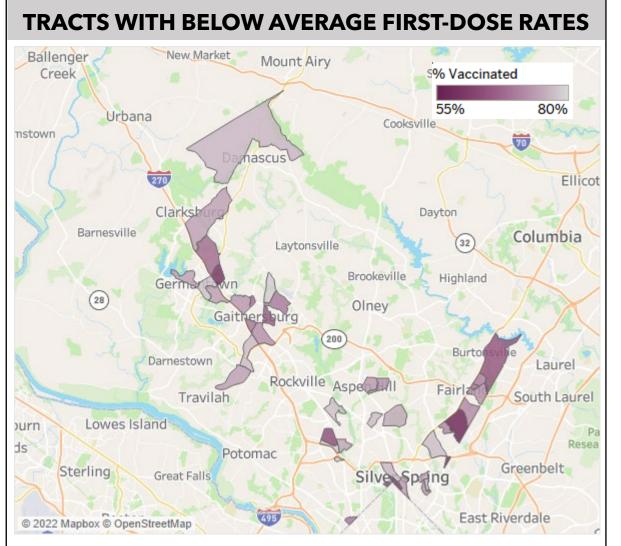

Moderna, and the second dose identified for individuals first administered J&J. Doses are counted without regard to date. Total counts are estimations and not precise due to entry errors and missing doses for Marylanders who received any of their doses out of state.

Unlike the CDC vaccination data, data from Maryland Health Department only include Montgomery County residents who were vaccinated in Maryland. Totals do not include vaccinations administered at federal entities within the county to non-residents.

COVID-19 VACCINATIONS: GAPS

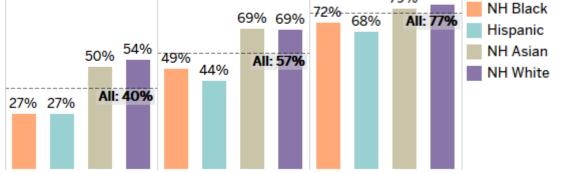

Across the highlighted tracts above, 30% of the population is White non-Hispanic, 27% is Black non-Hispanic, 24% is Hispanic, and 15% is Asian/Pacific Islander.

FIRST-DOSE VACCINATION RATES BY RACE Population Ages 5+ First-Dose Rates Hispanic 80% NH Asian NH White 60% NH Black The gap between the vaccination rates of Black 40% and White vaccine-eligible populations (ages 5+) is estimated to be 3% as of 20% 3/70% May '21 Jan '21 Mar '21 Jul '21 Sep '21 Nov '21 Jan '22 Mar '22

ADDITIONAL DOSE RATES BY RACE & AGE

Percent of Vaccinated Who Received Booster 12 to 17 18 to 64 65+ 79% 81% 69% 69% 72% 68% All 77%

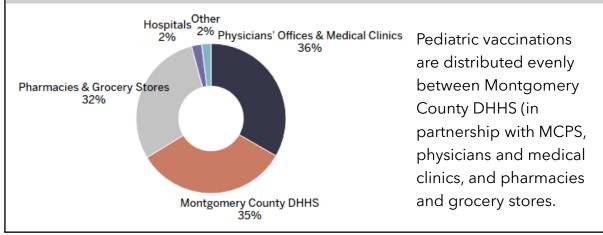

COVID-19 VACCINATIONS: PEDIATRIC VACCINATIONS

FIRST DOSES BY RACE/ETHNICITY % of 5-11 Population % of 5-11 year olds who received first dose 40% 34% 26% 21% 20% 16% 16% 13% 8% 7% Hispanic Asian or PI Black or AA Other White

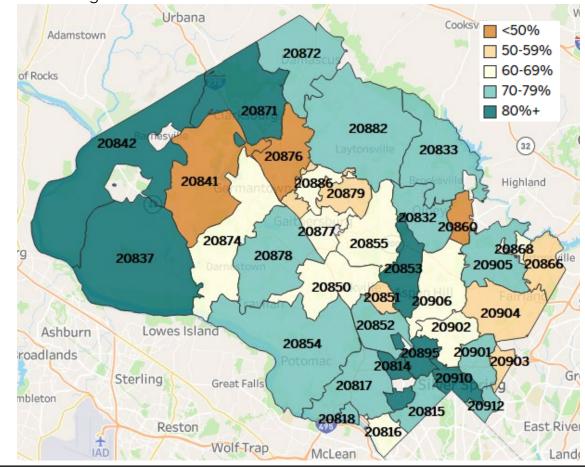

Charts reads: 26% of 5-11 population are Hispanic, and 21% of vaccinated 5-11 population are Hispanic. <1% of vaccinated children identify as Native American; they are included in the "Other" category. Approximately 3% of pediatric records do not contain race/ethnicity information.

PEDIATRIC VACCINE PROVIDERS

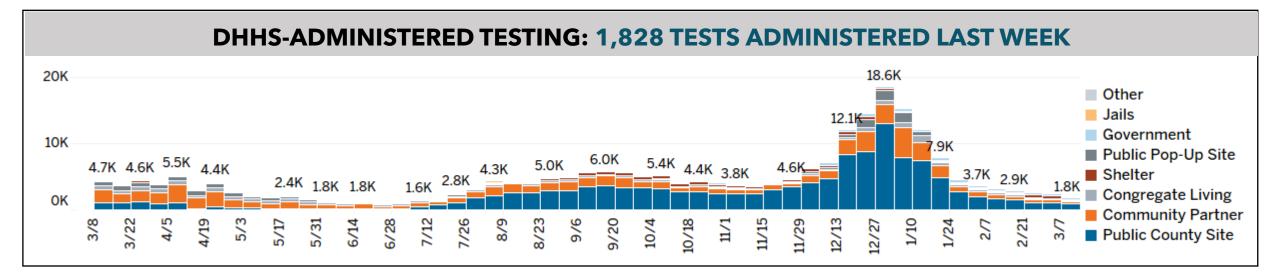

FIRST-DOSE VACCINATION RATES BY ZIP CODE

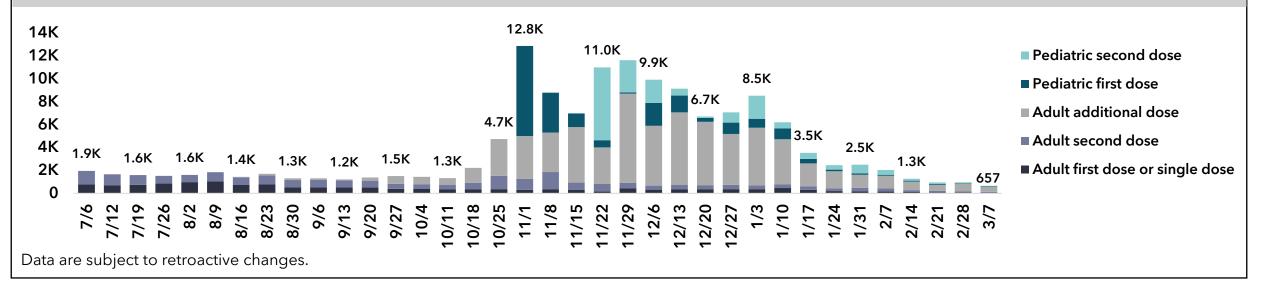

Vaccination rates among residents ages 5-14 are used as a proxy for pediatric vaccination rates in the map below due to the availability of population estimates only for certain age categories. Zip codes with fewer than 100 residents ages 5-14 are excluded.

COUNTY GOVT COORDINATED TESTING & VACCINATIONS

DHHS-ADMINISTERED VACCINATIONS: 657 DOSES ADMINISTERED LAST WEEK

DISTRIBUTION OF RAPID TESTS

- 2,144,000 rapid tests have been acquired by the County
- More than 1.6M kits have been distributed
- 847,866 kits and 1,011,327 masks have been distributed at libraries
 - Test kits and masks are now available during all hours that libraries are open.
- 490,280 rapid test kits have been provided to MCPS
- 135,082 test kits & 229,963 masks distributed to childcare, private schools, and community non-profits
- 48,090 rapid test kits and 124,446 N95 masks have been distributed through municipalities

DATA SOURCES

This report aggregates data from several sources, some of which are publicly available. Nearly all data are subject to retroactive changes.

- Rental assistance data is generated by DHHS each Sunday prior to the publication of this report.
- Data on evictions are provided by the Montgomery County Sheriff's Office each Monday for the week prior.
- Data on shelter occupancy are collected by DHHS weekly.
- MC311 data are downloaded weekly from <u>DataMontgomery</u>.
- Unemployment data are downloaded monthly from <u>FRED</u>.
- Case data and positivity rate are provided by Maryland Department of Health. Real-time data can be found on the Montgomery County <u>COVID-19 Surveillance Dashboard</u>.
- Data on COVID-19 deaths are available through the <u>Maryland Department of Health</u> dashboard and ArcGIS platform.
- Data on hospitalizations and deaths by vaccination status are available on the <u>DHHS COVID-19 website</u>.
- Vaccine data are downloaded from the <u>CDC website</u> each Tuesday morning. More detailed vaccine data are provided by the Maryland Department of Health Immunet database.
- Data on county government coordinated testing and vaccinations are collected by DHHS daily.
