RESPONSE: EMERGENCY ASSISTANCE & DEMAND
COVID-19 RENTAL RELIEF UPDATE: WEEK OF MAY 2-8

APPLICATIONS BY WEEK (ENDED 12/31)

11,032 total applications
(excluding 3,879 duplicate applications in grey)

APPLICANT CHARACTERISTICS
• 52% matched with landlord application
• 53% unemployed past 90 days
• 29% needed to care for self/others
• 23% self-reported receiving an eviction notice
• Median household income: $21,159

APPLICANT HOUSEHOLD CHARACTERISTICS

Household size

Percent of Area Median Income

0% 1-30% 31-50% 51-80% 80%+

11% 60% 21% 4% 4%
COVID-19 RENTAL RELIEF UPDATE: WEEK OF MAY 2-8

APPLICATION PROCESSING*

Denied 33%
Processed 66%
Assigned/under review 1%

Denials are primarily due to applicants not having arrears/mortgage assistance requests, exceeding income requirements, not demonstrating county residency, and include non-responsive and fraudulent requests.

ALL-TIME TOTALS

The current round of funding adds to two previous rounds of COVID-19 assistance. In total, the Emergency Rental Assistance Program has approved:

• $77.7M in payments
• 10,482 households

APPROVALS

The number of households and payments have decreased as most applications from this round have been processed.

Total Approved Payments: $59.8M
(4-day workweek in light blue)

Total Approved Households: 5,986
(4-day workweek in light blue)
COVID-19 RENTAL RELIEF UPDATE: WEEK OF MAY 2-8

HEATMAP OF RECIPIENT HOUSEHOLDS

RECIPIENT RACE/ETHNICITY

- Average client payment: $10K
- 64% of payments arrears; 36% prospective
- 44% of awarded households are in high-need areas as defined by the Homeless Prevention Index
COVID-19 RENTAL RELIEF UPDATE: WEEK OF MAY 2-8

**ERAP1 EXPENDITURES**

Award*

$59.5M

Current spending and encumbered

$59.5M

* Total ERAP1 includes direct and state funding.

**ERAP2 EXPENDITURES**

Award

$34.1M

Current spending and encumbered

$6.2M

Note: Spending and percentages may shift as payments are reconciled.

EVICTION TRACKER

NEW WRITS BY WEEK

- **1,046** residents scheduled for eviction after July 19
- **45%** of households with writ have applied for emergency rental assistance
- Context: **fewer than 8%** of writs typically result in eviction

NOTE: Records on writs for eviction can include commercial tenants as well as multiple notices for a single household. The stats above attempt to capture unique residential households only, but it is not always possible to make such distinctions.
SHELTER OCCUPANCY

Average Daily Shelter Occupancy by Week

- Hotels
- Interfaith Works
- Montgomery County Coalition for the Homeless

Note: Data last updated 5/2/22. Updates to shelter occupancy will resume in the next Pulse report.

NOTE: Up to March 7, total occupancy did not include MCCH-affiliated hotels providing shelter to those who are in quarantine or isolation.
1,403 calls last week for DHHS services

- 47% of last week’s DHHS service calls were regarding public assistance programs
- Most questions regarding public assistance are referred to the Office of Eligibility and Support Services, which in March fielded 2,678 direct calls and 2,789 referrals from MC311
- 6% of DHHS calls to MC311 were about the COVID Rental Relief Program
MC311 WEEKLY CALL VOLUME: DHHS

PUBLIC HEALTH

332 calls last week for Public Health

COVID-19 CASES, VACCINATIONS, & TESTING
COVID-19 COMMUNITY LEVEL STATUS

Based on CDC’s community level indicators, Montgomery County’s community level status is **MEDIUM**.

- 200 or more cases per 100k in the past seven days
- Fewer than 10 new COVID-19 admissions per 100k in the past seven days
- Less than 10% of staffed inpatient beds occupied by COVID-19 patients on average in the past seven days

For real-time updates, visit the COVID-19 Surveillance Dashboard: [https://www.montgomerycountymd.gov/covid19/data/](https://www.montgomerycountymd.gov/covid19/data/)

Weekly Age-Adjusted COVID-19 Case Rates by Vaccination Status

Note: Case data only reflect confirmed cases via PCR tests.
COVID-19 HOSPITALIZATIONS

- There are 63 hospitalized COVID-19 patients as of 5/8. Acute care occupancy (40) has doubled since last week and ICU bed occupancy (5) increased slightly (+2).
- 3.8% of hospital beds in the community are occupied by patients with a COVID diagnosis (as of 5/8).
- 18 patients are currently hospitalized at the alternate care site. These patients are transfers from other hospitals and may come from other jurisdictions.

For real-time updates, visit the COVID-19 Surveillance Dashboard: https://www.montgomerycountymd.gov/covid19/data/
COVID-19 DEATHS

Monthly COVID-19 Deaths
Updated 5/8/22

Montgomery County
Maryland

*VSA revised death data on May 27, 2021 to include COVID-19 deaths not previously counted.

NOTE: Monthly totals are based on the date death was reported, which may not be the same as the date on which the death occurred.
HOSPITALIZATIONS & DEATHS BY VACCINATION STATUS

NOTE: Hospitalization rates for the boosted population are not available.
COVID-19 VACCINATIONS: TOTALS FROM CDC

**TOTAL VACCINATIONS (AS OF 5/2/22)**

- **≥95%** of total population received at least ONE DOSE [N=1,074,211]
- **87%** of total population received at least TWO DOSES (fully vaccinated) [N=917,579]
- **55%** of fully vaccinated population received a FIRST BOOSTER/ADDITIONAL DOSE [N=500,959]

*The CDC caps percentages at 95% to account for margins of error in data entry and population estimates.

NOTE: On 4/15/22, Maryland made updates to previously submitted data to the CDC that resulted in a decrease of 50,176 doses administered. Some percentages may have decreased as a result.

**VACCINATIONS BY AGE GROUP**

<table>
<thead>
<tr>

<td>91-95%</td>
</tr>
<tr>
<td>AGES 5-11</td>
<td>70-76%</td>
<td>60-66%</td>
</tr>
</tbody>
</table>

Chart reflects percent of total age group population that received doses. Percentage estimates are reflected as ranges for ages 12-17 and ages 5-11 due to higher margins of error.

- **58%** of the fully vaccinated 12+ population received a FIRST BOOSTER/ADDITIONAL DOSE [N=500,729]
- **78%** of the fully vaccinated 65+ population received a FIRST BOOSER/ADDITIONAL DOSE [N=131,965]

NOTE: The CDC vaccination count includes Montgomery County residents who received their shots in Maryland or outside the state. It also includes vaccinations administered in some federal entities within Montgomery County.
Charts below show most recent full weeks of data, up to May 1, 2022.

VACCINATIONS BY DOSE

- ADDITIONAL DOSE
- SECOND
- FIRST & SINGLE

ADDITIONAL DOSES BY AGE GROUP

A first booster is defined as the third in a series of two Pfizer or Moderna doses, or the second if recipient received J&J as first dose. A second booster is defined as either the third or fourth dose, depending on whether recipient received J&J as initial dose. Doses are counted without regard to date. Total counts are estimations and imprecise due to entry errors and missing doses for Marylanders who received any of their doses out of state.

Unlike the CDC vaccination data, data from Maryland Health Department only include Montgomery County residents who were vaccinated in Maryland. Totals do not include vaccinations administered at federal entities within the county to non-residents.
COVID-19 VACCINATIONS: GAPS

TRACTS WITH BELOW AVERAGE FIRST-DOSE RATES

First-dose vaccination rates are lower in certain tracts. Across the highlighted tracts above, 30% of the population is White non-Hispanic, 30% is Black non-Hispanic, 24% is Hispanic, and 12% is Asian/Pacific Islander.

FIRST-DOSE VACCINATION RATES BY RACE

The gap between the vaccination rates of Black and White vaccine-eligible populations (ages 5+) is estimated to be 3% as of 5/2.

ADDITIONAL DOSE RATES BY RACE & AGE

The graph shows the percent of vaccinated individuals who received additional doses. Notably, the percentage varies by age and race, with NH White individuals showing the highest rates across all age groups.
COVID-19 VACCINATIONS: PEDIATRIC VACCINATIONS

**FIRST DOSES BY RACE/ETHNICITY**

Charts reads: 20% of 5-11 population are NH Black, and 16% of vaccinated 5-11 population are NH Black. <1% of vaccinated children identify as Native American; they are included in the “Other” category. Approximately 3% of pediatric records do not contain race/ethnicity information.

**FIRST-DOSE VACCINATION RATES BY ZIP CODE**

Vaccination rates among residents ages 5-14 are used as a proxy for pediatric vaccination rates in the map below due to the availability of population estimates only for certain age categories. Zip codes with fewer than 100 residents ages 5-14 are excluded.

Pediatric vaccinations are distributed evenly between Montgomery County DHHS (in partnership with MCPS, physicians and medical clinics, and pharmacies and grocery stores.)
COUNTY GOVT COORDINATED TESTING & VACCINATIONS

DHHS-ADMINISTERED TESTING: 2,668 TESTS ADMINISTERED LAST WEEK

DHHS-ADMINISTERED VACCINATIONS: 1,247 DOSES ADMINISTERED LAST WEEK

Data are subject to retroactive changes. The current data collection system does not distinguish between first and second booster shots.
2,144,000 rapid tests have been acquired by the County

- More than 1.6M kits have been distributed
- 1,019,363 kits and 1,262,624 masks have been distributed at libraries
  - *Test kits and masks are available during all hours that libraries are open.*
- 490,280 rapid test kits have been provided to MCPS
- 138,892 test kits & 245,143 masks distributed to childcare, private schools, and community non-profits
- 48,090 rapid test kits and 124,446 N95 masks have been distributed through municipalities
This report aggregates data from several sources, some of which are publicly available. Nearly all data are subject to retroactive changes.

- Rental assistance data is generated by DHHS each Sunday prior to the publication of this report.
- Data on evictions are provided by the Montgomery County Sheriff’s Office each Monday for the week prior.
- Data on shelter occupancy are collected by DHHS weekly.
- MC311 data are downloaded weekly from DataMontgomery.
- Unemployment data are downloaded monthly from FRED.
- Case and hospital occupancy data are provided by Maryland Department of Health. Real-time data can be found on the Montgomery County COVID-19 Surveillance Dashboard.
- Data on COVID-19 deaths are available through the Maryland Department of Health dashboard and ArcGIS platform.
- Data on hospitalizations and deaths by vaccination status are available on the DHHS COVID-19 website.
- Vaccine data are downloaded from the CDC website each Tuesday morning. More detailed vaccine data are provided by the Maryland Department of Health Immunet database on a weekly basis.
- Data on county government coordinated testing and vaccinations are collected by DHHS daily.
