

CONSTRUCTION UPDATE:

Executive Boulevard Separated Bike Lanes
Woodglen Drive to Nicholson Lane

The Montgomery County Division of Highway Services mailed a newsletter in June 2019 to residents and property owners along Executive Boulevard about the upcoming Executive Boulevard resurfacing work between Woodglen Drive and Nicholson Lane. This notice is an update on the construction activities and sequence of work. Resurfacing work will begin in August 2019 and will continue into late summer or early fall. New pavement markings will be installed to implement the master planned separated bike lanes.

The first phase of construction will involve the modification of handicap ramps and new accessible pedestrian signals at the Nicholson Lane and Executive Boulevard intersection. This work will begin around August 1st through mid August.

The second phase of the project will begin on or around August 25th and will involve the repaving of Executive Boulevard in the evening hours from 8pm to 5am. Night work is being performed to minimize disturbance of traffic and parking operations. This work will be followed by the addition of lane markings, signing, and curb bike lane barriers instead of flex posts. Work is anticipated to be completed in September 2019.

Example of a separated bike lane
