[EXTERNAL EMAIL]

Hi David,

WSSC has no objection to the abandonment if our assets within Northfield Road are adequately protected. WSSC will require an easement if the existing right of way is abandoned, as stated in the letter. Also cc'd in this email is Barbara Dillman, Section Manager for Engineering and Environmental Services Division here at WSSC Water. You can access the documents in projectdox.

The easement intake form and other required information could be found at [Land Service Section](#)

Don't hesitate to let me know if there is anything else I can help with.

Sincerely,

**Emmanuel Benyella***Project Manager*
