

Meeting Agenda

US 29 Corridor Advisory Committee Meeting #12

Monday, July 10, 2017 – Thursday, July 13, 2017

6:30pm – 8:30pm

1. Introductions and Project Updates

2. Transit Signal Priority

As part of the project, Transit Signal Priority will be installed at 15 intersections along US 29 BRT Route. During this presentation, the Project Team will provide an overview of TSP and its basic concepts and the history of its use in Montgomery County. The group will then identify potential locations for TSP implementation and the Team will discuss the selection and implementation process for the US 29 corridor.

3. Environmental Documentation

Because it is partly funded through the federal Transportation Investment Generating Economic Recovery (TIGER) grant, the US 29 BRT Improvements Project is subject to environmental analysis and documentation under the National Environmental Policy Act (NEPA). During this presentation, the Project Team will provide an overview of the general NEPA process and how it applies to the project. We will then identify the study corridor's environmental (socioeconomic, cultural, and natural) resources on an interactive map and open the discussion to potential project impacts on these resources.

4. Bicycle and Pedestrian Accommodations

The project includes the installation of approximately 10 new Capital Bikeshare stations along the US 29 Corridor. The County's Bikeshare Team will provide an overview of Capital Bikeshare program and discuss the site selection process. The Project Team will ask the CAC members to identify potential locations for improved pedestrian access to stations.

5. Next Steps

- a. CAC Meeting #13 – Week of September 11th, 2017
