CIO on digital business opportunities that leverage technology to drive cross-organizational efficiencies, replace legacy processes, seek out and enhance economic development opportunities. The position will establish public/private partnerships to meet the County's priority objectives; enhance value, and opportunities to lower the overall cost of service delivery.

The incumbent advises the Director of Technology Services on digital business opportunities that leverage technology to drive cross-organizational synergies, partnerships, and integration to meet the County's priority objectives; enhance stakeholder value; and lower the overall cost of service delivery. The incumbent monitors trends in digital government practices and strategies; leverages experience in enterprise technology management business transformation and IT driven innovation ideas; organizational management; asset management; multi-generational technology investment; digital government strategy planning; systems, technologies and techniques; and knowledge of information privacy and security risk management to advise the County on IT governance and digital risk management. The incumbent works proactively with business units to implement practices and governance that maximize return on investment in process and service automation initiatives to deliver targeted outcomes and meet investment objectives on a large scale. The CDO is responsible for ensuring the enterprise's business strategy is optimal, given current and emerging digital realities, opportunities and threats. The CDO champions the use of information and technology in business model design and all aspects of the business to create business success for Montgomery County. The CDO may also execute on most or all digital initiatives.

01A.104.30.02 Major Duties:

The Chief Digital Officer serves under general policy direction from the Director of Technology Services.

Works collaboratively with other County executive-level managers to create a digital vision for the County, and to identify the opportunities for differentiating capabilities and solutions that achieve the priority goals and objectives of the County.

Reviews current and planned information technology and digitalization efforts, investments, and initiatives of the County to advise the Director of Technology Services [CAO] and major stakeholders in the development and maintenance of appropriate organizational structures necessary for the County to meet emerging and future challenges and demands in enterprise digital business management.

MONTGOMERY COUNTY EXECUTIVE REGULATION

Offices of the County Executive • 101 Monroe Street • Rockville, Maryland 20850

Subject	Position Description for Chief Digital Officer	Number 8-20
Originating Department Office of Human Resources		Effective Date July 29, 2020

Works with the Department of Technology Services and all others to make recommendations to the CAO related to the County's services and digital business.

Solicits input and gains an understanding of the digital business issues and opportunities from each business unit, integrating them into the development of the enterprise digital business strategy.

Ensures digital initiatives are implemented and integrated into the internal IT assets and capabilities, or cloud-based services.

Manages DTS personnel to provide solutions that promote digital trends, opportunities and advises on its use to affect large-scale outcomes; including the use of smart mobile devices (in the hands of customers/citizens and employees), social media, technology embedded in products (such as vehicles), the integration of IT and operational technology (e.g., 5G telecom networks, county-wide networks, energy and transportation grids), and the Internet of Things (e.g., smart lighting, sensor-based SMART controls, body worn networks and devices).

Makes recommendations on augmenting current enterprise organizational structures and increasing the focus on the big digital picture including opportunities, threats, capabilities and gaps; ensures resourcing and organizational design strategy recommendations integrate well with the overall business strategy of the County.

Advises on the selection, acquisition, or creation of digital solutions and services or the addition of digital capabilities to existing solutions and services.

Develops and administers digital risk governance artifacts and instruments (e.g. dashboards) to support the digital risk management objectives of the County.

Works with executive management to determine acceptable levels of risk for the organization and guides security culture, policy, and technology for measurable improvement in the County's digital services risk posture.

01A.104.30.03 Examples of Duties: (Illustrative Only)

- Advise the Director on IT investments, policies, and practices and in the development and maintenance of appropriate organizational structures necessary for the County to meet emerging and future challenges and demands of the constituency through digital services.

- Lead the development of the digital business strategy and roadmap for the County.
- Define and report on digital business key performance indicators (KPIs) and metrics that represent progress against digital goals.
- Continually assess past, current, or proposed future IT programs and advise the Director on the digital assets and capabilities needed to survive and thrive in the midterm and the long term.
- Ensure Countywide reduction in risk to digital initiatives by ensuring representation and participation in programs by all business units and stakeholders.
- Identify and help in incorporating management best practices to transform increasingly more County's service to digital than present.
- Work in a team with County departments and agencies, leading organizational changes and IT environments required to create and sustain enterprise digital capabilities.
- Collaborate with information asset owners, asset custodians and other business, technology, and digital security and risk stakeholders to manage risk.
- Encourage accountability for the successful delivery of County information technology programs/projects and digital services.
- Advise the Director on IT investments, policies, and practices for the development and maintenance of appropriate organizational structures necessary for the County to meet emerging and future challenges and demands through digital services.
- Participate in the County's information technology strategic planning and governance structure, to make recommendations and provide cohesion and convergence with the digital government plan.
- Participate in steering committees or advisory boards of major programs.
- Provide regular reporting on the current status of the digital risk reduction program to enterprise risk teams, senior business leaders, independently elected and appointed officials and the County Executive, as part of a strategic enterprise risk management program, thus supporting County

business outcomes.

- Advise on the development, implementation and monitoring of a strategic, comprehensive program to ensure appropriate levels of confidentiality, integrity, availability, safety, privacy and recovery of information assets owned, controlled or/and processed by the County.
- Create a framework for roles and responsibilities with regard to information ownership, classification, accountability, and protection of information assets and investments.
- Facilitate a metrics and reporting framework to measure the efficiency and effectiveness of the program, facilitate appropriate resource allocation, and increase the maturity of information management programs, and review these with stakeholders at the executive and IT Policy Advisory Committee (IPAC) and Interagency Technology Policy Coordination Committee (ITPCC) levels.
- Identify technology opportunities outside of direct organizational control to include contracts and acquisition alternatives for managing digital business.
- Conduct surveys of comparable experiences and programs in other jurisdictions and sectors.

01A.104.30.04 Minimum Qualifications:

Education: Bachelor's degree in Management Information Systems, Business Management, or Public Administration or a directly related field.

Experience: Ten (10) years of relevant work experience, in digital business management, enterprise information systems management, or related role with at least five (5) or more years of progressive leadership experience in leading cross-functional teams and enterprise-wide programs.

Equivalency: Any combination of education and experience that has been achieved and is equivalent to the stated education and experience and required knowledge, skills, and abilities deemed adequate by the County to successfully perform the duties and responsibilities of this job.

Licenses, Registrations, Certifications, or Special Requirements:
