## Getting It Right: Documenting Controlled Substances for DEA Compliance

The **Total Administered Dose** of any Medication goes under:

Clinician Actions

Medication

+ Add

Medication

(NW) 06/30 12:19

Yes

Fentanyl

Accounting for and documenting every **μcg** or **mg** in each vial of a controlled substance should be detailed here:

Signatures

Controlled Substances

Used more than 1 vial?

+ Add Another

Ensure that the amount recorded as “Administered” plus the amount recorded as “Wasted” **equals** the full contents of the vial—no more, no less.
