FIRE AND RESCUE COMMISSION

Montgomery County, Maryland

R E S O L U T I O N

SUBJECT: Establishment of Response Areas ADOPTED: September 8, 1994

Definition

A response area is the geographic area served by a fire and/or rescue station whose boundaries are the mid-points in road distances between fire and/or rescue stations. (Code Sec. 21-14(a))

Background

1. The County Code requires that the Fire and Rescue Commission establish response areas for all fire and rescue corporations, pursuant to the provisions of Section 21-14, and that the Commission at least annually review and recertify these response areas with amendments as necessary. (Code Sec. 21-4G(a))
2. The current response areas were established by the Fire and Rescue Commission on July 10, 1993.
3. As a result of the changes described below, the response areas were revised for Stations 8, 17, 25, 28, and 31.
 - a. Box areas 8-13 and 8-14 were created to provide a more appropriate response into the previous box 8-7 response area.
 - b. Box area 8-15 reflects the completion of Woodfield Road.
 - c. Box area 17-22 was amended to provide a more appropriate response to the upper Georgia Avenue area, and to modify the current 17-7 box area.
 - d. Box area 25-25 reflects the completion of Wintergate Drive.
 - e. Box area 28-17 was amended to reflect the proximity of Station 8 to this response area.

- f. Box area 28-21 was enlarged due to the completion of Woodfield Road and access provided by the Mid-County Highway.**
- g. Box area 28-25 reflects the completion of Woodfield Road.**
- h. Box area 31-33 modifies current box 31-15 to establish a separate box area for the Kentlands development.**

FIRE AND RESCUE COMMISSION

Montgomery County, Maryland

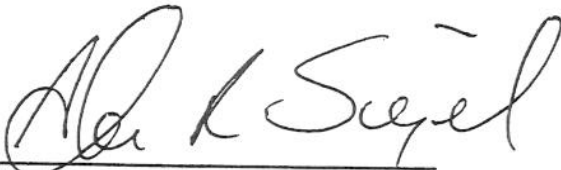

R E S O L U T I O N

SUBJECT: Establishment of Response Areas ADOPTED: September 8, 1994

Action

1. **The Montgomery County Fire and Rescue Commission has reviewed the revised response areas as shown on the revised response area maps and certifies them.**
2. **The certified response area maps are approved and adopted by reference. These maps will be maintained in the Emergency Communications Center and the Fire and Rescue Commission office.**
3. **The Department of Fire and Rescue Services is directed to establish revised box areas within the response areas and to dispatch apparatus in accordance with applicable dispatch procedures and this resolution.**

**This is a correct copy of the
Fire and Rescue Commission's action.**

FIRE AND RESCUE COMMISSION

Montgomery County, Maryland

R E S O L U T I O N

SUBJECT: Establishment of Response Areas ADOPTED: July 10, 1993

Definition

1. **A response area is the geographic area served by a fire and/or rescue station whose boundaries are the mid-points in road distances between fire and/or rescue stations. (Code Sec. 21-14(a))**

Background

1. **The County Code requires that the Commission establish response areas for all corporations, pursuant to the provisions of Section 21-14 and that the Commission at least annually review and recertify these response areas with amendments as necessary. (Code Sec. 21-4G(a))**
2. **The current response areas were established by the Fire and Rescue Commission on February 14, 1991.**
3. **As a result of the changes described below, the response areas were revised for stations 8 and 29, 10 and 11, 13, and 15.**
 - a. **Box areas 8-4 and 8-5 were changed due to improvements in Neelsville Church Road and other access points to Montgomery Village for Station 29.**
 - b. **Box areas 10-26 and 10-30 were instituted due to a change of access for Station 11 to nearly all of the southbound area of Clara Barton Parkway and areas accessed off this roadway.**
 - c. **Box areas 13-18 and 13-19 were created to provide changes as a result of the relocation of Carroll County Station 1.**
 - d. **Changes to box areas along Burtonsville's length of Route 29 were made to provide special highspeed highway response needs.**
