- Recovery Plan
  - Bookdrops were opened and branch telephones reactivated on June 29.
    - The books returned on the first day filled hundreds of tubs. This prompted a social media post to let customers know that they do not have to return all items immediately.
    - Extra tubs were ordered for all branches, but the returned materials are quarantined for 72 which means there are a number of tubs being used just to hold those materials.
Holds to Go, our contactless pickup service, began on July 6. Holds to Go will be offered at all MCPL branches except Noyes and Long Branch libraries. Customers can reserve items online or over the telephone. Requests are limited to 100 items per customer. When the items are available, customers are notified by email, text, or phone, based on their account preference. Customers will then schedule an appointment by telephone or online to pick up their materials. At their scheduled appointment times, customers pick up their bagged materials from tables inside the branch vestibules or just outside the front doors. On the first day, 572 customers took advantage of this service.

Virtual programming continues to be very successful. Tom Friedman was a recent guest. We will doing a war series with Montgomery History.
- Vinyl Day, including Make Music Montgomery, will be held virtually on July 25. Lance Salins, FOLMC, will present on how to value your vinyl record collection.
- Customers are happy that some services are beginning to resume.

**Budget Update**
- The pandemic has financially impacted the County.
- The County’s major focus is providing funds for residents who need food, shelter/rental assistance, and/or childcare.
- The County hopes the majority of this money will be recovered from FEMA.
- All county departments have been tasked with submitting a revised FY21 operating budget with a 6% reduction. This amounts to $2.6M for Libraries. The instructions included no reduction in force.
- A meeting will be held Thursday, July 9 to go over the budget with MCPL managers.
- MCPL’s budget submission will be before the Council’s Education and Culture Committee on July 13.
- Lapse - money that accrues from the time a position/job becomes vacant until it is filled. Every department is required to maintain a certain lapse amount.
  - Every MCPL job that is currently vacant will be held in hopes that they can be filled at some point.
- Zeroing out the budget for Sunday substitutes.
- The budget for weekday and Saturday substitutes will be cut ($466K). The remaining $40K will be held for substitute drivers.
  - There are currently only four drivers for all routes including the State run.
- Transferring the personnel cost ($156K) of the Deaf Culture Digital Library coordinator from county payroll to the State grant.
- Decreased funding by $173K for furniture, supplies, and in-person programming.
- The training budget was decreased by $15K.
- The contract with Community Services for Autistic Adults and Children (CSAAC) to sort books at Collection Management will not be renewed.
  - Proper social distancing in the book sort area is not possible with the CSAAC workers and their job coaches.
  - MCPL merit staff will now do this work.
- Reduced the Page budget (shelvers) by $1M.
  - The task of shelving is in the job description of merit staff.
  - The County Executive instructed libraries to hold $500K of the $1M in anticipation of another cut.
- Committed to not reducing the collection budget. However, if there is another cut of $1M or more, it will have to come from the collection.
Follow-up questions and comments on Director’s Report:
  o How will the budget cut affect library customers?
    ▪ There will be no visible impact while in the current stage. The service hours for the branches have been reduced for the early stages, once MCPL is charged to increase hours, then there will an issue. In order to cover the hours and services, more personal would need to be hired.
    ▪ More self-serve options have been put in place such as more self checkout machines, self-checkin and self-checkout by phone via an app through cloudLibrary. Also meeting with the Department of Finance to determine if PayPal for remote printing can be put into place.
  o How will the budget cut affect digital resources?
    ▪ Digital resources are part of the Collection budget and will not be affected.
