SCAM Phone Calls Continue, Demanding Money to Prevent Arrest

Scammers are continuing to use phone calls to extort money by threatening people with arrest if they do not immediately send money, or pre-paid credit card numbers. According to Montgomery County Sheriff Darren M. Popkin, the phone scammers are actively contacting Montgomery County, Maryland residents in an attempt to trick them into paying for non-existent arrest warrants.

A caller, falsely claiming to be from the sheriff's office, says that a warrant has been issued for your arrest and will be served unless, of course, you pay up immediately.

“Montgomery County Deputy Sheriffs will never call and threaten to arrest you unless you immediately send an electronic payment,” said Sheriff Popkin. “Deputies will never ask you to place funds for payment on a pre-paid credit card to cancel an arrest warrant.”

The scammer may get specific by giving you his name and “official” rank. The caller might also request personal information so he can clear your name and cancel the mythical arrest warrant.

The scammers may tell their victims to go to a store, get a pre-paid credit card, load it up with money, and then call a phone number with the card information.

Many Montgomery County residents have been targeted. After getting numerous calls from the public, Sheriff Popkin assigned a deputy to respond to fraud complaints.

People can protect themselves from becoming victims of identify theft by never giving out any personal information when getting an unsolicited phone call. Giving out sensitive information over the phone — both personal and financial — can put people at risk for fraud.

If you have received a scam phone call from someone claiming to be a Montgomery County (Md.) Deputy Sheriff who is going to arrest you unless you immediately send money, contact the Montgomery County Sheriff's Office at 240-777-7000. Please save any recorded messages, record the date and time of the phone call, the purported name of the caller, the call back number, and their phone number as displayed on caller ID.
