OUR PLAN TO ELIMINATE FATALITIES AND SERIOUS INJURIES ON OUR ROADS BY 2030

PRESENTATION TO NORTH BETHESDA TMD ADVISORY COMMITTEE • 04/29/20
WHAT IS VISION ZERO?
1. Transportation–related deaths and severe injuries are preventable and unacceptable.

2. Human life takes priority over mobility and other objectives of the road system. The road system should be safe for all users, for all modes of transportation, in all communities, and for people of all ages and abilities.

3. Human error is inevitable; the transportation system should be designed to anticipate error so the consequences are not severe injury or death.

4. People are inherently vulnerable, and speed is a fundamental predictor of crash survival. The transportation system should be designed for speeds that protect human life.

5. Safe human behaviors, education, and enforcement are essential contributors to a safe system.

6. Policies and practices at all levels of government need to align, making safety the highest priority for roadways.

TWO-YEAR ACTION PLAN – ACTION ITEMS

Engineering
• Design facilities that prioritize safety above all else
• Key Outcome: Reductions in severe and fatal collisions in High Injury Network (HIN)

Enforcement
• Encourage safe behaviors using evidence-based high visibility enforcement
• Key Outcome: Hours of dedicated enforcement for factors contributing to severe and fatal collisions

Education
• Engage the public to promote the importance of traffic laws and safe behaviors
• Key Outcome: Increased awareness of dangerous driving, biking, and walking behaviors

Traffic Incident Management
• Ensure that when a collision occurs, prompt care is provided
• Key Outcome: Maintain response times for traffic collisions with injuries based on dept. standards

Law, Policy, and Advocacy
• Improve the way traffic safety is managed by changing codes, laws, and policies that do not align with Vision Zero
• Key Outcome: Passage of significant laws and policies required to implement Vision Zero
• $266.6 Million for Vision Zero related projects
  o 26 pedestrian and bikeway projects
  o Vision Zero incorporated into 16 road and bridge projects
• $23.9 Million in additional funding
  o $9.3 Million for Pedestrian Safety CIP
  o $4.5 Million for Purple Line BiPPA
  o $4.2 Million for filling in sidewalk gaps
  o $2.0 Million for Amherst Ave. bikeway
  o $1.9 Million for lighting along Seven Locks Rd Bikeway
  o $1.3 Million for minor bikeway projects
  o $0.7 Million for widening Good Hope Rd sidewalk project
2020 Projects in North Bethesda
Scheduled to be installed are:

**HAWK Beacons:**
- Democracy Blvd & Walter Johnson HS (2x)
- Twinbrook Pkwy and Recreation Center

**Bicycle Facilities:**
- Marinelli Rd

**Shared Use Path:**
- Rockville Pike from Tuckerman Ln to Pooks Hill Rd
WHITE FLINT WEST & STATION ACCESS IMPROVEMENTS

White Flint West
- $74.1M project
- Utility relocation and construction on-going
- Executive Blvd between the Bethesda North Marriott Hotel & Conference Center entrance and Old Georgetown Rd will permanently close on or about May 10, 2020.

MD-355 & MD-187 intersection
- $2.9M for improvements to accessing White Flint Station from the north
- Next two years, eliminate “hot” right turns and reconstruct sidewalks on each side of Rockville Pike
Scheduled to be installed in 2020:

**Traffic Signal:**
- Wisteria Dr & Crystal Rock Dr
- Randolph Rd & Bushey Dr
- MD 586 & Norris Dr (SHA)
- Colesville Rd & Lanark Way
- Connecticut Ave & Lenox St (SHA)

**HAWK Beacons:**
- Willard Ave. & The Hills Plaza
- Democracy Blvd. & Walter Johnson HS
- Twinbrook Pkwy and Recreation Center
- Summit Ave & Brookfield Dr
- Bel Pre Rd (upgrade existing RRFBs)
- MD 586 & Andrew St (SHA)
- Muddy Branch & Muddy Branch Square Shopping Center

**Rectangular Rapid Flashing Beacons:**
- East West Highway & Edgevale St (SHA)
- Dale Drive & Dartmouth Ave
- West Cedar Lane & Cedarcrest
- Wisconsin Ave & Commerce Lane / Avondale Street
- Georgia Ave & Fenwick Lane

**Flashing Beacon:**
- MacArthur Blvd & Dunrobbin Dr
Scheduled for design and/or construction:
Complete Street Upgrades:
• Crabbs Branch Way
• Bel Pre Rd
• Middlebrook Rd

Signal Timing Modifications:
• Shady Grove Rd

Bicycle Facilities:
• Capital Crescent Surface Trail
• Woodmont Ave
• Marinelli Rd
• Aspen Hill Neighborhood Greenway
• Amherst Ave (in design)

Bus Stop Improvements:
• Randolph Rd

Trail Crossings:
• 15 additional upgrades
MCDOT and CountyStat developed an interactive project map to highlight Vision Zero related projects happening across the county.

Since the initial launch of the map, SHA projects have been included such as speed limit reductions on major highways and signal projects.

The map can be found on the Vision Zero homepage.
MCPD utilizes the Maryland Highway Safety Office’s high visibility enforcement (HVE) calendar to perform regular stepped up enforcement all year round. MCPD utilizes analyses from MHSO, Traffic Division data analyst, and CountyStat to identify hotspots for crashes.

Enforcement is typically tied with education to inform residents of the dangerous behaviors, ways to curb the behaviors, and explain why we perform high visibility enforcement.
<table>
<thead>
<tr>
<th>Dangerous Behavior</th>
<th>Enforcement Activity</th>
<th>Effect on Crashes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Drivers not yielding to pedestrians at crosswalks</td>
<td>Targeted driver enforcement at crosswalks</td>
<td>↓23% pedestrian crashes</td>
</tr>
<tr>
<td>Impaired driving</td>
<td>Publicized sobriety checkpoints</td>
<td>↓17% alcohol related crashes</td>
</tr>
<tr>
<td>Driver excessive speeding</td>
<td>Automated speed enforcement</td>
<td>↓19% reduction in severe collisions</td>
</tr>
</tbody>
</table>

If all U.S. communities had speed-camera programs like the one IIHS studied in Maryland's Montgomery County, more than **21,000 fatal or incapacitating injuries would have been prevented** in 2013.
