MCDOT and CountyStat developed an interactive project map to highlight Vision Zero related projects happening across the county.

Since the initial launch of the map, SHA projects have been included such as speed limit reductions on major highways and signal projects.

The map can be found on the Vision Zero homepage.
The new street design guide standards under development by MCDOT and the Planning Department set a target speed of 20 MPH for downtown and neighborhood streets. To test the potential safety benefits of 20MPH target speed limits, MCDOT is piloting the treatments on downtown streets to determine what treatments and messaging are effective in getting drivers to travel at 20MPH.

The Phase I Pilot Area will cover streets in Germantown, Woodglen, and Long Branch. Depending on the results of this pilot, it will be expanded to other areas in the county.
The County Department of Transportation applied for and received a grant from the Metropolitan Washington Council of Governments to examine traveling in our urban areas and transit accessibility for people with low or no vision. The study will examine existing conditions, stakeholder feedback, and leading practices to make recommendations on improving the pedestrian environment.
The 2021 Vision Zero Youth Ambassador Program consisted of 28 Montgomery County high-school students and trains them to become road safety leaders in their community. Ambassadors attended a special virtual training on road safety, cause campaign (Ambassador Plan) development, and public speaking. The program ended with each ambassador creating and executing an Ambassador Plan where each Ambassador finished a safety project for their community. Projects included art contests, safety petitions, research projects, and social media campaigns. Ambassadors received SSL hours for their participation.
A draft of the Vision Zero 2030 Plan was released by the County Executive on April 15.

Five listening sessions, one for each county region, were held in April and May.

The comment period closes Monday, June 21.

THANK YOU TO MCCAB FOR PROVIDING COMMENTS DURING THE PHASE I OUTREACH!!
